BACKGROUND

The natural rubber (NR) industry is a significant contributor to the global economy. Many rubber products depend on NR for their quality performance. More than 60% of the world's production of NR goes into the tyre sector. In fact some products such as the aviation tyres depend fully on the supply of NR for their production.

Over the years, the world has sometimes witnessed uncertainties in the supply of NR. Much of the uncertainties have been attributed to the NR price volatility. Despite various initiatives at the global and regional levels to intervene to stabilise prices, price volatility continues to be an issue. The fact indicates that every 4-5 years, NR prices decline and the most severe is in the recent period.

The highs and lows of NR prices are now accepted as a reality by the industry. It is time to think of better ways to cope with that reality. An option that has been widely considered is to venture downstream and invest in the manufacture of value added products. With the rise in the global green economy, venturing downstream makes it attractive for NR because as an industrial elastomer, it meets all the requirements of a green material.

In upstream sector continuous efforts to reach higher productivity and cost efficiency are appropriate strategies to cope volatile NR price. New findings in high yielding clones, harvesting technologies, manufacturing and other agronomic practises are essential also to ensure sustainability of NR industry.

This conference in conjunction with World Plantation Conference and Exhibition 2017 (WPLACE 2017) provides an opportunity to deliberate on the current issues and future challenges focusing on the theme **“Current and Future Challenges in Natural Rubber Industry: Capturing Opportunities in The Green Economy”**.

RUBBER CONFERENCE TOPICS

Day 1: 18 October 2017 (Morning)

- Opening by the President of the Republic of Indonesia
- General Lectures

Day 1: 18 October 2017 (Afternoon)

- The Role of The International Tripartite Rubber Council in Stabilizing Rubber Price (CEO of The International Rubber Consortium, THAILAND)
- Recent Development in The Automotive Tyre Industry: Implications to The NR Industry (Mr. Rajiv Budhraja, Director General, Automotive Tyre Manufacturers Association, INDIA)
- Natural Rubber in Engineering Applications (Dato' Dr. Kamarudin Ab Malek, CEO of The Tun Abdul Razak Research Center, UK)
- Supply and Demand of Natural Rubber (Mr. Salvatore Piniz zotto, International Rubber Study Group, SINGAPORE)
- The Rise of The Green Economy: Implications on The NR Industry (Prof. Dato' Dr. Ahmad bin Ibrahim, Academy of Sciences Malaysia, MALAYSIA)
- Current Trends in Latex Dipped Goods Industry (Prof. Dr. Ho Chee Cheong, Vice-Chancellor First City University College, MALAYSIA)
- Rubber Price Study: An Insight Into Rubber Trend Through The Macro Financials (Mr. DAR Wong, Chief Investment Strategies, Dektos Investment Corporation, SINGAPORE)
- Consumption Pattern Affecting Supply and Demand of Natural Rubber (Dr. Nguyen Ngoc Bich, The Association of Natural Rubber Producing Countries, MALAYSIA)
- Funding of Climate Change Mitigation and Adaptation Activities in Indonesia (Dr. Medrilzam, Indonesia Climate Change Trust Fund, INDONESIA)
- Natural Rubber: Assessing it's Potential as a Sustainable Crop (Moenadji Soedargo, GAPKINDO, INDONESIA)

Day 2 : 19 October 2017

- Parallel Session (papers are invited from the IRRDB Member Institutes, industry, & universities)
 1. Agronomy, Plant Breeding, Plant Protection, Latex Harvesting Technology
 2. Socio-Economy, Environment, Processing Technology

Day 3 : 20 October 2017

- General Lectures

Day 4-5: 21-22 October 2017 (for IRRDB Board Only)

- IRRDB Annual Meeting

WHO SHOULD ATTEND THE CONFERENCES

- Policy Makers
- Government Officials
- Investors
- Bankers
- Hedge Fund Managers
- Planters
- Millers
- Traders: Importers, Exporters
- Academia / Researchers
- Profession & Commodity Associations

CALL FOR PAPERS

We invite papers for oral/poster presentation. The deadline of abstract submission is on 1 June 2017 and full paper is on 1 August 2017.

Papers should be submitted to:

puspitasari.santi@puslitkaret.co.id
admin@theirrdb.org

WHO SHOULD PARTICIPATE IN THE EXHIBITION

- Agro Industry Based Companies
- Environmentally Friendly Industries
- National & Regional Government Agencies
- Human Resource Development Organizations
- Consulting Firms
- Mechanization Equipment Companies
- Agriculture Machinery Companies
- Agro Chemical Fertilizer Companies
- Civil design & Planning Firms
- ITC Companies

VENUE

Conference and IRRDB annual meeting will be held at Bali Nusa Dua Convention Center (**BNDDC**), Bali Indonesia from 18-22 October 2017. Bali is known as island the world top destination, make it as the best place to address the conference and leisure as well.
